OmniForge Solutions LLC

Custom software, NetSuite and infrastructure for federal agencies

CORE COMPETENCIES

- Custom web applications and portals (C#/.NET, React/TypeScript, PHP, Node.js)
- Mobile applications for iOS and Android (React Native)
- NetSuite development and administration (SuiteScript, SuiteFlow, SuiteTalk, RESTlets)
- Database design, migration and reporting (SQL Server, PostgreSQL, MySQL)
- Server infrastructure: Linux, Windows Server, Docker, CI/CD, backups and monitoring
- APIs, integrations and modernization of legacy and spreadsheet-based processes

RELEVANT EXPERIENCE (KEY PERSONNEL)

- **Enterprise ERP:** Founder architected and solo-built a 178,000-line ERP and customer portal for a U.S. manufacturer covering orders, production, inventory, finance and HR, with a live SQL Server-to-PostgreSQL migration and NetSuite integration.
- **Federal programs:** Founder built software for the Ground-based Midcourse Defense program at Boeing and for Missile Defense Agency programs at ASRC Federal (2021–2024).
- **Commercial SaaS:** Founder designed and built a multi-tenant SaaS platform with online payments and native mobile apps.

DIFFERENTIATORS

- Senior engineer who has built and run production systems end to end
- NetSuite expertise rare among small software firms
- Founder-led delivery with a vetted bench of US developers committed on award
- Low-overhead small business; supports primes' subcontracting goals

Target customers: civilian agencies (VA, HHS, MCC and others) and prime contractors seeking small-business software partners.

COMPANY DATA

UEI	VVBJLFL7NFV7
CAGE	20CS4
Size	Small business
SAM.gov	Active
Founded	2024
NAICS	541511, 541512, 541519
PSC	DA01, DH01
Location	Huntsville, AL
Contracts	Prime, subcontract, teaming
